Dear Neighbors,

We would like to inform you that grading activities have begun for the San Rafael Airport Sports Center, and let you know what to expect over the coming months.

This week and next we will be installing erosion control and wildlife barrier fencing, in preparation for fill material being trucked onto the project site. Starting mid-next week and continuing periodically for the next 2-3 months, trucks will be bringing in approximately 6000 cubic yards of fill material as called for in the approved project grading plans.

Grading activities may continue through February 1st, as allowed under our project approvals. However, if the site becomes too wet owing to severe El Nino winter storms, we may cease work early in which case we will take steps to winterize the site as required under our permits. Project updates will be posted at sanrafaelairport.com, on the 'Sports Center' tab. Project details can be seen at LetMarinPlay.com.

For more information or to express any concerns, please contact Len Nibbi at 415-453-0212 or myself at 415-472-7700.

Best Regards,

Bob Herbst-Manager
San Rafael Airport LLC
